

Finding Things Out Online

Early Years Online Safety – Managing Online Information

Spring Term 2

I can talk about how to use the internet as a way of finding information online.

Hello families,

This half term, we are learning about how we can use the internet to find information and answers to questions.

The internet can help us learn new things, such as facts, pictures, videos and ideas. We will also talk about the different devices we can use to access information online, and how to do this in a safe and sensible way.

Key Learning

I can talk about how I can use the internet to find things out.

I can identify devices I could use to access information on the internet.

Questions to ask

- How can a child get the answer to a question?
- Who could they ask?
- Is there any other way to get an answer to a question?
- What is the difference between asking a question to a person, and asking the internet?
- Would you get the same answer?
- Does the internet have 'all the answers'?
- What sort of devices can we use to get the internet? (e.g. tablet)
- What other devices can we use?

1 What do you want to know?

We can all have questions about the world around us. Here are some examples:

2 Devices we can use

We can use different devices to access the internet and find information.

3 How can the internet help?

The internet can help us to find:

4 Activity – Find it out!

Choose a question from below (or think of your own) and try to find the answer together using a device.

5 Things to remember

- ✓ Ask a trusted adult if you are not sure how to find something.
- ✓ Use kind and sensible words when searching.
- ✓ Look at different websites or videos to find the best answer.
- ✓ Remember the internet might not always have the right answer.
- ✓ Tell a grown-up if you see something that is confusing or worrying.

6 Key Message

The internet can help us find lots of amazing things out. We can use different devices to search for information, and we always ask a trusted adult if we need help.
